"Windows Switcher is a brilliant tool that allows you to easily move between any number of running programs, documents and web browser windows. An ideal tool for moving between web sites and a replacement for the the title bar." Techniksoftym: Windows Switcher is so cool and useful, I use it for daily tasks. I use to drag the mouse cursor to the taskbar to see the quick list of open windows and open one window, then as soon as I release the mouse button, it switches to that window. I really like the windows switcher. Make Windows Switcher work for you, not against you. Press the windows key + ctrl + p and use the mouse to scroll. Find what you want - press the windows key + ctrl + s to switch to that window. The new Quick Switch program is an easy way to switch between different open programs or web sites. The program makes it easy to switch between open Internet Explorer, Internet Explorer, Firefox, Opera, and other program windows. Desktop Switcher is a Free program that allows you to easily see all your running applications, documents and internet browsers. Click on any running window, and Desktop Switcher will instantly switch you to it, so you can work or play without interruptions. WinSwitch is a small utility program that allows you to switch between running applications and windows. The program automatically detects running programs and opens them in new windows when you scroll over the taskbar or the desktop. WinSwitch operates by "capturing" all running window titles, then matching them up with the desired window title. Once a match is found, WinSwitch instantly opens the desired window. The program requires you to configure some settings on your system, which includes defining the shortcut keys that you want to use for switching, setting up the HotSpot file directory where you want the program to search for window titles, and setting up a HotSpot

Remove Your Kitchen Idiot-ness Since the kitchens in most homes are not purpose-designed, we've become stuck with the terrible ideas we cook up for ourselves. The biggest one is the obsession with extravagant and cutting-edge recipes. The world's weirdest, most unusual and most outlandish dishes are often served at your home. And no matter how odd they are, you still manage to sit down and enjoy them at the table. But what if you could just as easily have a completely different set of dishes served in your home, and you'd never even have to leave the comfort of your couch? What if your kitchen had a purpose? What if the leftovers that you use to prepare those recipes were sorted by type, and not simply by the amount of food that you found and could eat that day? Well, you're in luck. A new toolkit to help clean up your kitchen and avoid the kitchen idiocy has arrived. Disabling bugs in your apps, with just one click. Bugscanner is a bug hunting app which will help you find some of the commonly found out-of-place elements in your favorite apps. Bugscanner will record the information and then you can use it to submit an issue report. The latest version of this application has been updated to include numerous bug fixes and speedups that will make you love using it even more. User-friendly, lightweight & multi-platform. Bugscanner is one of the lightest and most reliable bug hunting apps, and it remains extremely easy to use on all the different platforms that are supported. Thanks to its lightweight nature, it's also one of the few bug hunting apps that you can continue using without worrying about running out of memory. Bug hunting is not just fun, it's also rewarding. With the amount of bugs that are found in apps, people will say that bug hunting is just a game. But there's nothing game-like about it. It's very much a practical task, and you can become a hero for finding and reporting the bugs that many other people have missed. In fact, sometimes you can get a nice reward for just learning about a brand new bug. But no matter if you find a bug while playing a game or you're just investigating a problem that you're having, you can find the app that you really love on Cydia's Big Boss.
