## Astrology Software Free Download Full Version

Aug 14, 2019 - Plenty of kundli software for free, no cost, no money,. the Kala program is actually a rival program to astroCalc for Windows and Astrolabe for.Q: "Drop Down List" Selected Value Reset when onPostBack occurs I have a simple "Drop Down List" on a Master Page. I made the autopostback="true" attribute for the list, so that it will post back to itself (as per MVC2 Tearing Down the ASP.NET Page Life Cycle). The problem is that when the drop down list posts back, it doesn't keep the selected value. Is there a way to do this? I am using.NET 4.0 with C#. A: Here is an answer provided by S. L. Barth. Custom postback event handler that maintains selected value of a drop-down list control String selectedValue = Page.GetSelectedValue("ListSelectID"); Also, here is an example of Page.GetSelectedValue. A: This is generally a bad idea from a maintainability standpoint, but you can do a little trickery: function postBack() { var dropDownList = document.getElementById("dropDownList"); if(dropDownList) { dropDownList.selectedIndex = 1; } } 1 2 This will get the list selected index, and set it back to "1" when you post back. (The "2" will be selected). I don't know if this is the best way to handle it, but it is a solution. 595f342e71
