Love is another matter for friends and family. 24000+ IMDb.com + Subscribe: Learn more about Australian Made: "Blue Is the Warmest Color" is a moving, intimate portrait of a young girl's experiences as she battles mental health challenges. Her thoughts are philosophical and intellectual yet her struggles are down-to-earth. We discover how the challenges of being a teenager in modern society can be crippling. In a bold step for French cinema, director Lea Seydoux's debut fiction feature takes a realistic approach to describing a serious mental health problem. Now the film is showing at the European Film Festival of Sydney on 16 November. "Blue Is the Warmest Color" is a moving, intimate portrait of a young girl's experiences as she battles mental health challenges. Her thoughts are philosophical and intellectual yet her struggles are down-to-earth. We discover how the challenges of being a teenager in modern society can be crippling. In a bold step for French cinema, director Lea Seydoux's debut fiction feature takes a realistic approach to describing a serious mental health problem. Now the film is showing at the European Film Festival of Sydney on 16 November. A film by Lea Seydoux, French director of the 2009 film "I Am Love", explores the issues of mental illness, and its effect on the young, as experienced by a young actress. About Us. Contact.
