19th Century Britain is a demo version of an educational software entitled Democracy in Great Britain. This is a Java-based application that enables you to learn more about the democratic progress that took place in 19th Century Great Britain. The final goal of the educational software is to improve your history knowledge. The 3 modules are presented as games, and you must pass the tests to move to the next one. 1.What is a democratic society? A democratic society is a society in which citizens are free to participate in politics. Citizens can join clubs or associations, but these clubs and associations must be democratically run. The principal feature of a democracy is that people govern themselves. No one else, other than the citizens of a democracy, has the power to make laws. 2.Describe democracy in the United States. The United States is the largest democracy in the world. Democracy in the United States is as follows: Any citizen over the age of 18 can take part in democratic elections. The two most important political parties in the United States are the Democratic Party and the Republican Party. There are no special parties in the United States, because the parties try to represent everyone. The Federal Government is not run by a majority of a single party. No single person or party holds absolute power. The United States, in contrast to other parliamentary democracies, does not have a written constitution, and decisions about the country are made by individual politicians. 3.What is a National Assembly? A National Assembly is an institution where people with a common interest sit and discuss how to deal with public affairs. The National Assembly is a very important institution in a monarchy. The King has absolute power, so the

National Assembly has important powers as well. The National Assembly controls the government, making sure that the laws are followed. New people can become members of the National Assembly and become a member of the Council of Ministers by winning a popularity contest. The National Assembly meets on Tuesday afternoons. 4. What are the rights of citizens? The rights of citizens in a society are as follows: The right to health The right to food The right to work The right to free education The right to free and equal electoral participation The right to live in a safe environment 5. What is pluralism? b7e8fdf5c8

My name is Nick and I teach Modern History at the University of Nottingham. I am currently undertaking research into the War and Peace. I have been persuaded to make use of the recording equipment at school to make an audio collage. The aims of the clip are to make you more familiar with the historical events of the period and to inform you of the main subject matter of my course (War and Peace). I intend to make about twelve different recordings. By listening to them you will learn about the main themes and I aim to make you feel like this is what I feel about the period (as an undergraduate). As students of history we can use learning techniques to improve our knowledge of the subject. We can use a variety of different techniques such as studying facts, studying map, reading pages, using the internet etc. All of these techniques have their own benefits so it is a good idea to try them all. It is important to remember that different things are learnt in different ways so the best way to learn something will depend upon the way you learn. You can practise what you have learnt by asking your teacher, parents, friends and other people at school for help. To use this program simply type the name of your school as your title and choose History (or History and English for students of English as an alternative to English and History). Any help would be appreciated, with about a dozen of your students we can help each other -Nick Learn The History of the American Civil War. Civil War Educational Content is an authorized web site of the National Park Service The software helps you learn the Civil War by providing a guide for you as to what happened, why it happened, and who was involved. Also, it maps out the information you need to know for your exams in mid-July. In addition, this software provides information on specific battles and also allows you to navigate back and forth between particular battles, such as Shiloh and Gettysburg, without having to click through them one-by-one. The software will ask you for some background information in order to customize your account to best fit your needs. Once you have the program properly customized, you will be able to access all this information at your fingertips. There are many different types of history courses you can take in college. It can all get kind of confusing. Our mission is to make learning the history of our nation fun and understandable. Educational content for all ages and interests:
