What's new in Elden Ring:

AdventureQuest Worlds is an all-new, completely free MMORPG delivering unlimited MMORPG action without the risk. You'll be fighting epic battles, racing through dangerous deserts, and commanding armies in Camelot for all the gems, artifacts, and items that lie deep within its vast landscape. When the Tribe of Fire sent their warrior royal, Amassi, to the desert to find a legendary king named Ellivia, the role of the king was originally intended for a woman. As Amassi wandered into the landscape, he was greeted by an enchantress. Amassi, as most men find enchantresses enchanting, took the woman named Elsioron as his wife and simply hoped that he had married a woman instead of the fallen warrior. Now Elsioron lies buried and desolate, with just the remnants of her headstone. It is the duty of Elsioron's son, Garon, to find his true identity and bring her home as a princess of the golden eagle people, besides that was an entirely pointless wedding. Vic Gammill Friday, October 29, 2012 at 08:07AM AdventureQuest Worlds is available in North America, Europe, Australia, and Asia for free. We only accept donations in order to cover the server hosting costs. I downloaded this new so called MMORPG onto my iPod touch. I have downloaded anything and everything. This game is not the kind of MMORPG that you come to expect. You wait forever and nothing happens. You go into a world filled with nothing. Then there are regular people wandering around. No magic. No helpful NPCs. NO WOMEN. I could not figure out what to do. This is the worst MMORPG experience I have ever had.
