2012)Q: Rails 3.1 + PostgreSQL: syntax error
at or near The following error occurs when
running rake db:migrate:reset rails aborted!
ActiveRecord::StatementInvalid: PG::Error:
ERROR: syntax error at or near "" Dumping the
schema with ActiveRecord shows that:
a.t.migrations do |t| t.remove(:name) end
a.t.up do add_column :agents, :name, :string,
:limit => 255 end a.t.down do drop_column
:agents, :name end What could be the issue,
seeing that the column is already there in the
db? A: A solution to this problem, posted here
by Dmytro and Tobi: \$ sudo
/etc/init.d/postgresql stop \$ sudo

```
/etc/init.d/postgresql start $ rake  
db:migrate:reset $ rake  
db:migrate:reset_schema $ rake db:migrate A:
```

Tried with clean db and it worked. bundle exec rake db:migrate:reset So, in addition to the two new species that the scientists found in Denmark, a third new species of bee was discovered in Germany. But not only that; it looks like this species in particular was a special guest because, believe it or not, it was discovered on the 50th anniversary of the Heimatschutz meeting. While we all love good science, scientists might soon need to set aside their own needs to do some dirty work, including cleaning up some chemical spills on the side of the road. Yep, that's right. The Swiss activist group, Earth First!, are using a surgical laser to monitor pollinating bees living

in the vicinity of an oil production site. They're focusing on the presence of the carboxylesterase gene in these bees, since it's found

This is just an example of a image: I need to extract the text below the image, starting from "Discografia 1981-2012". Can someone help me to do this using regular expressions or another method? Thank you. A: Assuming you don't have any unknown characters in the middle of the string, use a non-specific search, for instance: `$preg_match = preg_match_all('/Dis(cografia). (1981-2012)/', $str, $matches);` If you have known bad characters, you can use one of: `$preg_match = preg_match_all('/(?Mortality trends in domestic poodles: 1963-1994. The mortality experience of domestic poodles (Canis familiaris v. griseus) was evaluated to estimate the life expectancy at birth, mortality rate at birth, and`

the mortality rate at a specified age. Of 49,187 poodles reported to the American Kennel Club Registry between 1963 and 1994, 37,341 (76.4%) were included in the analysis. The analysis was by means of a simple life table and a model was applied to evaluate cohort estimates. Poodle life expectancy at birth was estimated to be 9.1
