This is because of the impressive specs and design along with its own features. Now, its a turn to make this phone popular by adding some more features.

Users are now looking forward to the device if they get the latest update. It is reported that the latest update is currently under review and testing. A Tada bhat (interpreter) has given the information about the update. According to him, the update has been sent to some beta testers and it will roll out later. Samsung is trying to make things easier for the users by giving them the update.

Hopefully, the new update is going to be helpful for the users who are working on long hours. It would be nice if the update is able to go through successfully. However, it is always better to be safe than sorry. Let us wait and watch until the official roll out date. Also Read, Samsung Galaxy Note 8 includes IP68 certification. This means that the device is protected against dust and water. Also, it is dust proof. Besides that, it also has a body made of metal and glass. It has all these unique features that will satisfy all the needs of the people. As per reports, the device is expected to be available soon. The launch date is yet to be e79caf774b
