(FEATURED) Update: April 30, 2015 From our extensive feedback and testing so far, you are telling us that the original gameplay and levels are just not enough. So, in order to provide you with the most satisfying gameplay experience, we have put a lot of extra effort into the Charlie II update. In this update, we have completely re-written the entire game engine, from start to finish, all the way to the top level. This includes: New game engine, New levels (new maps, and new game modes). Classic levels are also updated with new game modes and maps (all original Charlie versions were updated with classic game modes and maps). The engine makes it easier for us to create new levels, and supports more game modes. Charlie game engine provides the underlying basis for the newly created game levels and game modes. Based on the new engine, we have the ability to create entirely new levels, and the modes include: CTF - Capture the Flag - the old games mode is back. New game mode includes: Player vs Player mode (PvP) - When a new level is created, we have the ability to create the underlying basis for the new game mode. Thus we are able to provide a new game mode with lots of different map types, and player classes. BT/BTB/CTF - Break the tower - the game mode is similar to CTF, however, in this mode, the tower cannot be destroyed by bullets, only by arrows. The game can be played in 4 vs 4 mode, or 8 vs 8 mode. When the tower is destroyed, the remaining players can get points by hitting the remaining tower. Game Lores: The Game of Dwarfs. The name itself tells the story. Players can take the role of dwarfs, and try to collect valuable stones that can be taken to the king's treasure house. They have to work hard and fight with goblins, other dwarves, and even monsters. The game has 7 game modes, and for every mode, a game map is created. For example, in the classic mode (newest one), each map has various map-types such as King's Island, Underground Pass, and Dungeon. Game Lores can be played by 1-4 players, and the game has 60 levels. Fantasy Chess. A fantastic retro game for the classic board game, Fantasy Chess features fantastic looking Chessboards, and lots of original game-modes. Fantasy Chess is one of the best

This gives him the confidence to go after the bounty hunt. Mickey (Amy. E. Player): She is Nura's best friend. After Mickey saves Nura from the bounty hunt at the Citadel she is tasked to help him free his now former lord Sheena Tash from captivity, and return to the city. She is short and quite mute.
