This add-on provides information, new characters, and new rules for the Savage Worlds ruleset! GAME INFORMATION The Mirrors of Carthage expands a town of Rome and adds a Savage World adventure for the introductory scenario book for the Time Zero Series!By Rob H., Game Design An article like this would not be possible without a few key people. First and foremost, thanks to Jordan Pobre, who initially encouraged me to expand on an existing campaign for my Savage Worlds! Secondly, thanks to Jordan for the immensely useful information he has shared on all things Time Zero. We're a group of three players in the Savage Worlds campaign, and it would not be possible to easily fit these new elements into the existing campaign. Jordan offered to set up a second campaign for the elements, and to provide any extra information and books to make it as useful as possible for us. Since Rob H. is the author of this Time Zero book, and part of the team creating the Time Zero Live page, I would like to thank him as well. A special thanks goes to Jordan who went above and beyond to ensure we all stayed in line with the new elements, and to Rob H. for coordinating the translations of the Time Zero Live page and the Mirrors of Carthage book. If you have any questions, comments, or opinions, you can post them on the Time Zero Facebook Group and we'll be sure to get them answered: So check out this book, and send us your questions, and check out the Time Zero Live Page: Thanks, the TZ Team Fantasy Grounds conversion: By Jeannette Jarrar, Il Pulcino Video, USA, June 11th, 2017 Features:- 1 stand-alone adventure- game content- alternate playability- Gameplay details for three different formats: Storyline, Player, and Character- NPC Quick Reference List- Language options for all Content- Game master toolkit- Savage Worlds and optional The Mirrors of Carthage book bonuses All three formats of this module can be played with The Mirrors of Carthage book. $9.19 Our Price Quantity The Starry Moon range is an advanced Marine lineup. Right from the start, the Marine Tank has won numerous awards and became the first tank in the Postlite Starry Moon range to sell to marine. Fishing departments are always looking for improvements, and the Marine tank has a few pointers to share. 1. A good exhaust system will shine light on your pup when the woods are dark, which helps promote improved visibility. A good exhaust system also prevents black carbon tars build-up from being blow-back into the boat. 2. A protective exterior window screens is a good idea for winter waters. 3. A flat bottom rifle is a good idea for long range hunting. The flat bottom hull also gives you the best surfaces for cleats so you can tie off to any object and is easier to climb into. We Believe. You Can Do Better. Anytime, Anywhere.Under New OwnershipIn Fall 2014, we had the New Orleans MMF, Comet DPS, and Emergen Sea Knight join our family of top-notch marine products in the Starry Moon line of products. Since then, we have invested time and resources to improve the products in terms of customer service and research to provide the best range of fishing products possible. Proven 50 Years of Fishing Products!NO, we don't tell you that to pump up sales.Rather, we tell you it because we know that fishing products over 50 years can be challenging. Everything must be continuously refined to make sure you have a good product... the good fishing products are those that can be developed year after year to keep it cutting edge.WE BLEND PROFESSIONAL R&D with management expertise. Recommend Fishing

Products? We spend time with fishing departments, reviewing products and checking out new lines. Sometimes we even spend an afternoon with a fishing department director, which offers other perspectives. Today, we recommend products that are commercial and proven, and then we offer an advanced Marine lineup. So, our recommendation of a product is based on our review of its strengths and weaknesses.Q: ManyToMany and the item_attribute, django class A(models.Model): def change_work_skills(self, skill_name): self.item_attribute.add(skill_name)
