The \$30 books are \$29.85 in the system. If you want a \$30.05 book, you'll need to pay a \$0.15 fee, and the book will cost you \$30.10. That's the only way to get a \$30 book price. (To avoid this problem, you can use the \$29.85 price.) Thanks! --Sally From: Sherri Sera 08/14/2000 05:03 PM To: Sally Beck/HOU/ECT@ECT cc: Subject: Re: FYI re: August 16, 2000 Process Change I called the credit dept. to check on this, and they said that if you pay more than \$30 for a book you should call a customer service person. I thought that books were \$30.05, but maybe it's different for electronic books. Does this work? Thanks, SRS From: Sally Beck 08/14/2000 04:40 PM 0cc13bf012

I am the creator of Mods Pack V2.6.8 and v2.5.5. I ported all the mods. GTA 5 - Money Script.One of the most destructive farming pests is the corn borers, commonly known as the European corn borer (ECB). These are a major pest of corn and other crops in North America. One of the most damaging types of damage is caused to corn stems, causing the corn plants to fail, thereby reducing yields. The corn borers cause damage by feeding on corn, leaving holes, cutting the stem and destroying it. They also feed on several other crops, including bean, alfalfa, sorghum and sunflower. The damage to root crops by corn borer larvae is usually not as severe as the damage to corn. Prior methods for destroying corn borers have included handpicking and spraying the fields. These methods are expensive, time consuming and lack the killing power needed for control. Recently, several methods have been proposed to deal with the problem of corn borers. One suggested method involves the application of a volatile repellent to a field as the corn pollen is in the male part of the plant. The volatile repellent attracts male corn pollen in the area and repels or lures the females away from the area. The plant pollen is then picked up by the female corn borer and deposited on the corn in the female part of the plant. The female corn borers enter the corn stem in the female part of the plant and deposit eggs in the corns stems. The female eggs are the only part of
