Gestor De Cocina Paco Roncero Crack Video Lebest Birthda

UPDATE #1, I have tried compiling using gfortran which would produce an executable, but there is no.h file that contains gf.h. I have this same folder on another computer running Linux but with no problem using gfortran to compile. UPDATE #2, I have run the command: ./configure make make install And in the configure.log I can see the error: configure:13: error: can not find gf.h I am not sure why the configure command isn't finding gf.h, but I have included the commands in the beginning of the configure.log: gcc -o wxfileregex.so -shared -I../..../ -I../..../..../applications/wxWidgets/include -I../..../..../common -I../..../..../common -I../..../..../fonts -I../..../..../graphics -I../..../..../graphics/freetype2/include -I../..../..../graphics/OpenGL/glw-3.0.0.1/include -I../..../..../graphics/third_party/tinyxml2/include -I../..../..../platform/linux/linux-i386-x86-64
