Fundamentals of adaptive filtering [book review] . Filtering Ali H. Syed, Wiley, 2003, . with cross-sectional filters in Chapter 14. The method of image filtering I have chosen - the method based on the application of the matrix A, using the so-called "mixing" operators to obtain the required image characteristics - in general requires much more effort and time than traditional filtering with using Gaussian or Bayesian functions. But it has one advantage: it allows you to achieve higher image quality. It can also be applied to complex objects (such as stars).
