BotCheck out the companies making headlines after the bell: Shares of American Tire and Rubber jumped more than 8% after the bell Thursday, as the company reported better-than-expected third quarter earnings. The Akron, Ohio-based tire company, which produces auto and light truck, heavy duty and agricultural tires, posted net income of \$29.4 million, or 33 cents per share, compared with a loss of \$6.2 million, or 7 cents per share, a year ago. Revenue grew 8% to \$1.51 billion from \$1.41 billion. "We are pleased with the performance of our business in the third quarter, and remain focused on achieving our strategic priorities, including driving the business forward into the long-term with initiatives such as M&A, the right strategic partnership for AIRA, and the continued adoption of our unique technology," said chairman and CEO Michael T. Fink. The company saw a 16% year-over-year growth in North America Tire market sales. The European and Middle East market grew 9%

year over year, while Asia and Latin America grew a better-than-expected 9%. Fink added the company's top-line performance in the third quarter was driven by strong execution and continued pricing power in the North America Tire market. For the fourth quarter, the company is expecting a comparable year-over-year decrease in volumes as it transitions to new retail store designs. Baidu shares surged more than 14% after the bell, as the company reported better-than-

What's New in the Bing Rewards Search Bot?

(click on picture to enlarge) The Recycle Bin Assistant is a small utility that helps you to keep your files safe from the deletion by mistake. It does not replace the standard recycling bin in Windows, but it is designed to keep the directory structure of the files to avoid your data from being overwritten. Basic functions of the program Let's have a look at what you are going to get from the program. As far as the name suggests, the application is designed to help you to create a list of files or directories that you need to recover from the Recycle Bin. In addition, it enables you to retrieve the files with ease. It is worth mentioning that the tool can be downloaded from the developer's website. After an installation, you will be required to log in using your Microsoft account and provide the web address to enable the Recycle Bin Assistant. You will be asked to give permission to the app to use the location of

your files, hence, enabling the recovery of your files. There is no need to hunt for your files by copying their path or entering the location manually in the app. The app is capable of detecting the files that are located in the main Recycle Bin folder and it offers the corresponding information in a live feed. You are able to recover any file that has been deleted or over written by mistake in one click. A tool that is secure enough to keep the valuable data safe What else could you ask for? Pros Simple to use Easy to learn Cons Does not support third party drives and partitions It only supports Windows 7 and Windows 10 Search and Recover Feature Not Compatible with Windows Server 2016 Detailed Analysis The Recycle Bin Assistant is a simple utility that will make your life much easier. If you are new to Windows and its programs, you will be glad to hear that this tool does not require advanced skills to operate. The utility is designed to help you to recover your important files from the

Windows Recycle Bin, that is located in the following directory: “%windir%\Recycle.Bin\”. You can now use the files to recover the information and use the application to transfer them to another location. The Recycle Bin Assistant is a great alternative to the built-in WinRAR, a popular data recovery program. Its main function is to provide support for Windows 7 and Windows 10 users and it is free to use for them. You are able to download it from the developer’s website. The program is designed to have a simple interface and it offers a visual explorer to access the files that have been recovered. You will be asked to provide your Windows Live account and you can add accounts as you like. Moreover, the program enables you to preview the files and can recover any deleted file easily. However, the Recycle Bin Assistant tool does not support third party drives and partitions. Furthermore,
